**An Informatics and Computer Science Project Proposal Submitted to the School of
Computing and Engineering Sciences in Partial Fulfillment of the Requirements for the
Award of a Degree in Bachelor of Science in Informatics and Computer Science**

School of Computing and Engineering Sciences

Strathmore University

Nairobi, Kenya

May 2023

Declaration and Approval

We declare that this work has not been previously submitted and approved for the award of a degree by this or any other University. To the best of our knowledge and belief, the research proposal contains no material previously published or written by another person except where due reference is made in the research proposal itself.

The Proposal of **James St. Patrick** and **Aisha Walcott** has been reviewed and approved by
Mr. Kevin Ochieng' Omondi

Supervisor Signature: _____ Date: _____

Acknowledgement

The acknowledgement for thesis/proposal is the section where you thank all people, institutions, and companies that helped you complete the project successfully. It is similar to a dedication, except for the fact that it is formal. Also, you don't need to mention every single person who helped you with the research - just those who were most important to your research. For example, you don't need to thank your partner for making you dinner as you worked on the project.

Note: You may remove this section if not applicable, but in most cases, it is applicable when writing your full documentation. But this is completely up to you to decide.

Abstract

Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other. For example, you can add a matching cover page, header, and sidebar. Click Insert and then choose the elements you want from the different galleries. Themes and styles also help keep your document coordinated. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme.

When you apply styles, your headings change to match the new theme. Save time in Word with new buttons that show up where you need them. To change the way a picture fits in your document, click it and a button for layout options appears next to it. When you work on a table, click where you want to add a row or a column, and then click the plus sign. Reading is easier, too, in the new Reading view.

Keywords: Question Answering, Maternal Healthcare, Generative AI, Complex Questions.

Chapter 1: Introduction

1.1 Background Information

Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other. For example, you can add a matching cover page, header, and sidebar. Click Insert and then choose the elements you want from the different galleries. Themes and styles also help keep your document coordinated. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme.

When you apply styles, your headings change to match the new theme. Save time in Word with new buttons that show up where you need them. To change the way a picture fits in your document, click it and a button for layout options appears next to it. When you work on a table, click where you want to add a row or a column, and then click the plus sign. Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device. Video provides a powerful way to help you prove your point.

When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other. For example, you can add a matching cover page, header, and sidebar. Click Insert and then choose the elements you want from the different galleries. Themes and styles also help keep your document coordinated. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme. When you apply styles, your headings change to match the new theme.

1.2 Problem Statement

Save time in Word with new buttons that show up where you need them. To change the way a picture fits in your document, click it and a button for layout options appears next to it. When you work on a table, click where you want to add a row or a column, and then click the plus

sign. Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device. Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add.

1.3 Objectives

1.3.1 General Objective

To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other.

1.3.2 Specific Objectives

- i. For example, you can add a matching cover page, header, and sidebar.
- ii. Click Insert and then choose the elements you want from the different galleries.
- iii. Themes and styles also help keep your document coordinated.
- iv. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme.

1.4 Research Questions

- i. For example, you can add a matching cover page, header, and sidebar?
- ii. Click Insert and then choose the elements you want from the different galleries?
- iii. Themes and styles also help keep your document coordinated.
- iv. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme.

1.5 Justification

When you apply styles, your headings change to match the new theme. Save time in Word with new buttons that show up where you need them.

To change the way a picture fits in your document, click it and a button for layout options appears next to it. When you work on a table, click where you want to add a row or a column, and then click the plus sign. Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device. Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document.

1.6 Scope

To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other. For example, you can add a matching cover page, header, and sidebar. Click Insert and then choose the elements you want from the When you Save time in Word with new buttons that show up where you need them. To change the way a picture fits in your document, click it and a button for layout options appears next to it.

1.7 Limitations and Delimitations

To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other. For example, you can add a matching cover page, header, and sidebar.

Chapter 2: Literature Review

2.1 Introduction

When you work on a table, click where you want to add a row or a column, and then click the plus sign. Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device. Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other as seen in

```
#include <iostream>
using namespace std;

int main()
{
    //this piece of code does something, figure out what...

    int number = 0, limit = 0, prod = 0;
    cin>>number>>limit;

    //this section gives you some output

    for (int i = 0; i <= limit; i++)
    {
        prod = (number*i)
        cout<<i<<" x "<<number<<" = "<<prod<<"\n";
    }

    getch();

    return 0;
}
```

Figure (Mtani & Nuhu, 2019).1 Piece of Code

2.2 State of Art in the Current Situation

When you work on a table, click where you want to add a row or a column, and then click the plus sign. Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device. Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced,

Word provides header, footer, cover page, and text box designs that complement each other. As seen in Figure 2.2

Figure 2.2 Happy Microsoft Family

2.3 Related Works

When you work on a table, click where you want to add a row or a column, and then click the plus sign. Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device. Video provides a powerful way to help you prove your point. According to the equation Equation 2.1.

$$(x + a)^n = \sum_{k=0}^n \binom{n}{k} x^k a^{n-k}$$

Equation 2.1 Some Equation

When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other. As seen in You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced, You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced, You can also type a keyword to search online for the video that best fits your document. To make your

document look professionally produced, You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced,
